6. (Fifth Amend) An integral interior trim member for a vehicle comprising:

an upholstery skin material, said upholstery skin material being substantially  
coextensive with said substrate;

52 a molded foam layer bonded to said upholstery skin material; and

a porous substrate bonded to said molded foam layer, said molded foam layer extending  
between said upholstery skin material and said porous substrate, whereby said porous substrate  
is held to a side of the trim member that is opposite of the upholstery skin material.
